MiniDV ugly. DR. MERRITT, 50s, at the front of a conference room. Behind him: END-OF-LIFE ANXIETY TRIAL 14-B

DR. MERRITT
The objective was relief of acute death anxiety in hospice patients--

CLICK. PATIENT REPORTS.

DR. MERRITT (CONT'D)
Several subjects described unusually vivid autobiographical experiences. Some reported

events they believed had not yet occurred.

WOMAN (O.S.)
And the man at the door?

Merritt pauses.

DR. MERRITT
Reported by more than one subject.

MAN (O.S.)
Death?

A few people laugh. Merritt doesn't.

DR. MERRITT
We didn't use that characterization.
